The Count *de Breuner* is appointed by the Emperor to conduct the *Lunenburgh* Troops who are returning home through his Imperial Majesties Territories, and to furnish them with all things necessary in their march. The Elector of *Saxony* has offered to assist the Emperor with five Regiments of Horse and as many of Foot; And besides he and the Duke of *Hanouer* will raise 10000 Men for the Republick of *Veniee*. The Count *d' Abele* dyed here suddenly two days ago of an Apoplexy. The Letters from the Court of *Poland* of the fourth instant say that the Princes of *Moldavia* and *Valachia* had sent to the Crown General to let him know, that if the Christian Forces advanced that way they would joyn with them against the Turks. The Seraiquier *Ibrahim* has again sent to the Duke of *Lorrain* to desire a Passport for an Envoy he would send hither with Proposals of Peace.

Cologne, Octob. 23. The Baron *de Mayerscheim* the Imperial Minister is arrived at *Bonne*; He has had Audience of the Elector of *Cologne*, and it's believed he will obtain what he was sent to desire of his Electoral Highness, to wit, that his Troops, now in the Emperors Service, may Winter in the Hereditary Countries, that so they may be the readier for the next Campagne, which will be begun very early. The Imperial Sub-Commissioners continue to examine the Promoters of our late disturbances, and have ordered Process to be made against some of the chief of them, according to the Orders they have received from *Vienna*. The Letters from *Strasbourg* of the 19th instant tell us that Monsieur *de Belfonds* had passed through that City in his Journy to *Munick*, being sent by the Dauphiness to Compliment the Elector of *Bavaria* her Brother upon his Marriage. And that all the French Troops on that side were gone into their Winter-quarters.

Hamburg, Octob. 23. The Letters from *Poland* tell us, that the Troops of *Lithuania* have been engaged with a Body of Tartars, and that after a very warm dispute, the latter were routed with considerable loss. They write from *Riga* that the Moscovites seeing the great successes the Christians have had against the Turks, began to shew some disposition to enter into the League against them, and that the Czars had named Commissioners to meet with those of *Poland*, at some convenient place on the Frontiers, for the adjusting the differences which have so long depended about the Limits. The Letters from *Vienna* of the 18th instant tell us, that notwithstanding the several reports of the surrender of *Caschaw*, the freshest advices they had from Upper *Hungary* made no mention thereof, but said on the contrary that General *Caprara* had caused the place to be invested, and that he had on the second instant sent a Trumpeter into the Town, to know of them whither they would stand out a Seige, and that the Magistrates had sent him back without any answer. But these Letters confirm the taking of *Tockay* and several other places and Castles, by detachements sent out by General *Caprara* for that purpose. They write from *Croatia* that 5000 Turks continued encamped near *Orovitza*, and that another Body was drawing together on the side of *Canitza*, with a design as it was believed to make a great incursion into the Imperial Territories; And that therefore Orders had been sent to the Croats to be upon their Guard, and the Ban or Viceroy of *Croatia* was marching with several Troops to reinforce the Imperial Camp near *Turanowitz*.
